Hugh Robinson:

I spent 34 years in education, ending my professional career as a consultant at the University of Arizona. I have spent a good portion of the last two decades volunteering on construction projects with Habitat for Humanity, locally and internationally. I have volunteered on two international teams, and have led 18 teams all over the world to help families secure a safe and affordable home. This will be my first lead with Global Builders. I am looking forward to the build in Peru, and sharing the experience with the volunteers. Having traveled to Peru in 2015, I know first hand how beautiful and heart warming the people are to volunteers.

It has been my mission for all my builds to give the volunteers a more complete cultural experience outside of the daily build. I will schedule time to visit a school and an orphanage if they are accessible.

Gary Voirol:

I spent 41 years in the construction industry, 31 as a General Contractor. I love working with groups of people, small or large. For the last six years I have been employed by Troon Golf LLC. Over the last ten years, I have led 15 teams worldwide with the Global Village division of Habitat for Humanity. I am very much looking forward to my first build with Global Builders and the Fuller Center for Housing.

I believe that it is important for volunteers to receive a balanced mix of work and cultural activities on these builds, and to work side by side with our partner family is quite a thrill. For me, these many builds that I have been blessed to be involved with, provide me with a perfect venue to give back some of the many people in need of a housing solution around the world. I currently reside in Phoenix, Az.
