Expected group size: 15  
Trip Number: 23056

I have had the pleasure of traveling to many wonderful places in the past 5 years including Malawi, South Africa, Botswana, Chile, Peru, China, to name a few. Many were on builds with The Fuller Center and Habitat for Humanity International. I fall in love each time with the people, places, and beautiful experiences and memories that are made on these trips. While I love to be able to make a difference in the quality of lives to those around me, many times the differences these experiences make to me seem more than I can ever repay. Please consider joining me in leaving your footprint in Nicaragua!
